For further information on these and more natural wonders please visit www.pathwaystowaverock.com.au

Granite Rocks and Lookouts

MASSIVE GRANITE OUTCROPS are a wonder waiting to be enjoyed. Formed over millions of years of erosion, these outcrops dominate the bushland and provide spectacular views, a haven for birds, wildlife and wildflowers and a delight for bushwalkers, wildflower enthusiasts and photographers.

GNAMMA HOLES Deep narrow rock-holes, used by Indigenous people, act like natural water tanks storing water with minimal evaporation.
